

BEHAVIORAL SAFETY

INNOVATION NEVER RESTS

LIGATURE RESISTANT PAPER TOWEL DISPENSER

#PH240

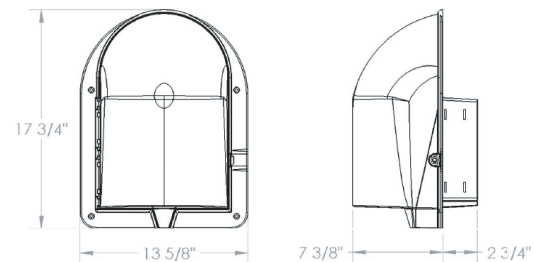

The patented PH240 Ligature Resistant Paper Towel Dispenser offers a better solution for managing paper towel usage in behavioral facilities and gives patients a safe and sanitary experience in towel use. The PH240 features a rounded, sloped face of a robust 1/8" polycarbonate for abuse resistance. The front of the PH240 has a viewing window to the unit's interior for staff inspection of the towel roll.

A portion of the PH240's back is designed to recess into the wall to reduce the unit's footprint in a patient bathroom. When installed, the outer flange of the unit fits snugly against the wall and, when mounted with pick-free caulk, discourages ligature.

The conical outlet of the dispenser allows patients to cleanly tear paper towels off at precut intervals along the roll to minimize waste and is sized to help prevent contraband from being stashed inside the opening.

The dispenser accepts center-pull paper towel rolls with 600 sheet capacity.

The dispenser includes mounting hardware and can be retrofitted to existing rooms or installed in new facilities.

Specifications

- Patent-pending ligature resistant design
- Viewing window to the interior for staff inspection of the towel roll
- Accepts center-pull paper towel rolls with up to 600 sheet capacity
- Constructed of shatterproof polycarbonate
- Locks with a barrel lock and circular key for tamper resistance and ease of maintenance
- Meets ADA standards when installed per manufacturer's instructions
- Fits between standard stud spacing in existing buildings
- Mounting hardware included
- Shipping weight 6 lbs.

Compatible Paper Towel Rolls

- Tork 120133 (single ply)
- Genuine Joe 23600
- Pacific Blue 44110
- Boardwalk 41321
